Hang ups.. Finding Nemo gore and guro edition.

A depressive 3D movie about fish living in a Korean fish shop where they cut and serve them while they are still alive.

Speaks for itself pretty much huh?

This movie has its strong sides for example:

+In addition to a cheap a55 3D you have plenty of hand drawn (Kaiba style) scenes.

+Beautiful Korean songs

+Brutal version of Finding Nemo

Now for bad parts

-Low-quality 3D

-Definitely not for everyone.

-Depressive

-Steam video player is a mess

On top of that, you have steam cards that cover part of the movie price.

All in all it is a good deal if you catch a good discount.. This game is pretty fun. Most people have complained of no button to get to main menu, even though all you have to press is Esc. Some People complain that there is no way to save, even though there is a button to save on the top right corner. In my opinion, most people who write bad reviews dont know how to play the game and are way too stubborn to try. The only problem I have with this game is no options menu but, I don't care all too that much about that.. Cool game, not worth £23, get it on sale.

Only reccomend buying if on sale. So far a very fun game to play, reminds of my days playing the classic Ninja Turtles, Power Rangers, Streets of Rage, and X-men Games ^\_^ . My only problem so far is how annoying it can be when trying to attack the zombies, you need to be directly in front of them but they get to hit you from any direction...lol, also now being able to hold grenades and heavy weapons at the same time. Other than that i've been having alot of fun so far ^\_^.

<https://youtu.be/pnN6DsEFQUo>. I love stuff like this.

I want people to do more stuff like this.

que lixo jogo da♥♥♥♥♥♥mo bosta esse jogo toma no cu. This game is EPIC

. Does what its supposed to do, I guess, which is not much.

Bit gimpy compared to other RC simulators ive tried though.. When minions die and you ressurect them they sometiems lose bodies or their heads. It's pretty funny. I don't get why it bothers people. I love this wacky stuff. Them Nords though. Greedy pasty white Nazi mofos.

10/10 oh my god this is amazing. I had grown weary of indie puzzle platformer games, and only tried Tick Tock Isle because was on sale. I was surprised to find that it was actually quite enjoyable.

Tick Tock Isle has interesting characters and a very charming aesthetic. It has so many hidden references to pop culture and literature, I remained interested in the setting throughout. Unlike many games like in the same sort of genre, TTI doesn't try to draw itself out with bad controls, repetition, a slow moving main character or non-interactive cutscenes. It just delivers a series of interesting events and challenges, held together by a story that wraps up before anything gets boring.

It's the perfect game for a Sunday afternoon - cheap, fun, not at all frustrating, and a good length.. Great strategy game! I had the board game and I loved it, I love the PC game even more.
